Custom Exception
Duplicate Id Exception

IPL T20 asks the commitee to suggest players for the next ipl series.
Write a program to get the team name,number of players, their id and name in such a way
that the player id in the team should be unique and display the suggested player list.
When the commitee enters an id that is already assinged for a player this program may
generate a custom exception called DuplicateIdException . Use exception handling
mechanisms to handle this exception.
Note:
Create two arrays: one for playerId and the other for playerName.Initialize the playerId
array with 0.
